WOMEN'S CLUBS

"Dramatic Day" has come to be looked upon as quite an annual eyent by members of the Ladies" Literary club, and the meeting next Friday will be a note-worthy one in many ways. Musical numbers will be given, but as the lending feature of the programme will be a clever little skit arranged by Mrs. E. B. Palmer. It will be a literary meeting of the women on Mount Olympus and in it will be take-offs on many of the most noted characters of the drama, ancient and moliern. The way some of the characters are being given by the members of the club, as shown at rehearsals, gives evidence of a scream. Unfortunately only club members will be admitted and the men are forever barred. From what can be learned of the plans for the day it will be one of the really good hits of the season.

Leatherwood read a delightful paper on "Spirit of the Age and the Early Church," after which D. H. Christensen, superintendent of the public schools, gave an intensely interesting talk on "Some Proposed Changes in the School Curriculum." The programme was concluded by a violin solo and a piano solo which were delightfully given by Miss Margaret Duvall ad Miss Romania Hyde.

A TIP ON SHOE STYLES (SEASON 1910) A Few of Our Many Style Hits at Popular Prices Pumps and eclipse ties are to be the one best bet, the big style hit for women and children. We feature them. Button oxfords will also be strong and the ever popular lace or Gibson tie will also be in good demand. The vamp patterns are short, and there is a tendency to wear the high heel effects. The stub or high toe effects are very popular in oxfords and button style, while in pumps the narrow toe or short vamps will be very much called for: Patent leathers will predominate, but tans will come in for a fair show of favor. whilst dull leather will be in fair demand. Kid stocks will be worn to a great extent by the more conservative. We take each grade and represent a wide choice as to the toe shape and material, and in no one special is it better exemplified than in our \$3.35 special for women. Every style hit and conservtive model is here represented, and the values are such that you cannot approach short of \$4 and \$5 the pair. \$3.35—Specials for Women— \$3.35 special for women's \$4 and \$4.50 values that you cannot duplicate short of the higher priced sorts. Practically all of these Oxfords are made by Erippendorf & Dittman, who do not know the meaning of the words poor shoes. The patents in this grade are built by Chrome patent, which we have found the most satisfactory we can buy, and whilst we do not guarantee patent, we will stand back of every pair of these for reasonable wear. Next in popularity to patent leather is the bright kid stock, which we show in the more conservative models. Gun metal and the demi-glaze effects are also to be very popular this season. Now we want to call your particular attention to this \$3.35 special if you are looking for merchandise out of the ordinary class. These shoes are made by the Goodyear welt or hand turn process, which makes them easy to the foot as it is possible to make a shoe; the linings are free e from wrinkles and the styles are modish and the shoe-making is of that superior character that has made American shoe-making famous throughout the world.
